## CALGARY PILOT NEARLY CRASHES WEST OF TOWN

Brett White Brings Down "Plane  
With Broken Propeller"

Coming down from the sky with a broken propeller, Brett White, a young pilot of the Great West Airways, Calgary, made a forced landing about four miles west of Bassano shortly before noon Wednesday.

White said he was passing a narrow space from a crash when the broken propeller blade flew off and grazed the lower right wing of one of the fabric and normally missing one of the main struts. Had the mishap struck full on the strut, the wing would have collapsed and the "plane would have gone down."

The plane was flying at an elevation of about 1500 feet when the accident happened. Although he had only this short distance in which to choose a landing spot and bring his machine down, White managed to make a safe landing without causing any further damage to the "plane."

White's plane was on the way to Banff when he saw smoke from the Scott-Sambrooke monoplane. The latter machine was about to take up on a trial flight by J. Palmer, of the Great West Airways.

In addition to the damage to the propeller and the wing, the motor was found to be damaged, due to the sudden strain sustained when the propeller blade broke.

The "plane, which has folding wings, was towed to Sambrooke's garage Wednesday night, and Mr. Sambrooke is repairing it.

## Rosemary News

ROSEMARY, Oct. 24.—A pool meeting was held last Monday night for the purpose of discussing the shipping in of coal and seed oats.

Miss Rosemary Robinson, returned home Sunday evening after having resumed teaching.

Miss Bonie, music teacher here, is giving a music recital in Duchess Friday, Nov. 1st.

Mrs. P. Gellings, with Francis and Berne, left Tuesday for Portland, Oregon, to visit her parents. Mrs. Gellings expects to be away until spring.

Miss Cora Narum and Miss Loraine Eastman motored to Gem and Bassano Tuesday.

Lillian Kenneth Young, while playing the piano here last Sunday, fell from a wagon. He was taken to the Bassano Hospital, but returned Saturday evening feeling much better.

Mrs. McClelland arrived home with her new son.

Bill Sturkey returned from Turner Valley on Sunday.

Roy Eastman made a trip to Calgary last Saturday, bringing back a new 1938 Nash.

The show given by the Gem school Wednesday night was well attended and enjoyed by all. The children are looking forward to these entertainments.

## Hussar News

HUSSAR, Oct. 24.—Mrs. J. Hoeght has purchased a lot from A. A. Cliford and has had her house moved in and is now a resident of Hussar. Mrs. G. Bradshaw and son Jack, of Wardlow, were visitors at the home of E. J. Bell on Saturday night.

Mr. and Mrs. J. Lawton, of Hussar, were in town Thursday.

Mr. and Mrs. Harper and Mrs. Middlemiss motored to Calgary on Friday.

Mr. and Mrs. W. A. Treaty were Calgary visitors on Friday.

Mrs. L. M. Montgomery spent the weekend with her daughter, Irene, in Calgary.

Mari Stepan has been on the sick list for the past week.

There was a very pleasant dance at Fairview on Saturday, several hundred people turning out to attend.

Marvin Anderson and Ivan Ware Bassano visitors last Friday.

Oscar Fleury, and sons left on Saturday for Modesto, California.

Mr. and Mrs. M. Steko were Bassano visitors that Saturday.

Mrs. James Armstrong, of Calgary, who has been visiting at the C. T. Armstrong home, returned to Calgary with Mr. and Mrs. C. T. Armstrong on Saturday.

Mrs. Melba Armstrong spent the weekend in Brooks.

Erie Blau is quite ill in the Bassano hospital.

Mrs. Henry spent the weekend in Calgary.

Mr. and Mrs. Blain Squires were over from Okotoks on Saturday.

Mr. and Mrs. H. R. Reeves, Miss Bonie, and George, M. A. Mahoney, and Mr. Stitt, of Chancery, visited Turner Valley on Sunday.

Mr. Macdonald has sold the farm to Lee Phillips.

P. Pringle took possession of the Harry barn which recently purchased from S. O. Swan, and moved the same to the rear of the home.

Miss Fletcher, who has been on the sick list for the past two weeks, is back, teaching the primary grades.

Mr. and Mrs. F. P. C. Farley motored to Calgary on Tuesday.

Mr. and Mrs. Wentland, Louise and Mrs. W. W. Wentland, motored to Rockyford on Monday.

W. J. Brown came up from Green branches, Washington, to attend the funeral of Wm. Vandermore, in Bassano on Wednesday.

Mr. and Mrs. A. A. Cliford were Calgary visitors on Tuesday.

## INTERIOR DECORATING

## IMPROVE NEW ALBERTA GOVERNMENT BUILDING

THE building formerly occupied by McKeon's men's wear store, and recently purchased by the provincial Department of Public Works, has undergone considerable improvement within the past few weeks. The work of repairing, calicosing, and varnishing the interior has just been completed.

The liquor vendor's store was moved in on the ground floor last

## SEWAGE DISPOSAL DISCUSSED AT B. OF T. MEETING

Action Wanted From Calgary City Council

Impatience with Calgary's continued delay in starting the construction of sewage disposal works, was evident at the Bassano Board of Trade meeting held in the Hunter Hotel dining room last Wednesday evening, October 23.

Calgary, it was pointed out, had been instructed by the provincial Department of Public Works to submit a proposal for the construction of sewage disposal plant, instead of dumping it in the river as they are now doing, and endangering the purity of Bassano's water supply. A. McKeon, said the town council had written the provincial Health Department in Edmonton enquiring what steps Calgary was taking to meet the situation.

"Mr. and Mrs. Narum, of the Williamson farms, are leaving in a few days for Rosseray district," said McKeon.

Our own local address the farmers of the area, and will do so again on Wednesday, Oct. 30. It is anticipated that, now the busy season is over, the school will be crowded. Mr. Garland is a very interesting and talented speaker, and every farmer in the district ought to hear him, as he has to say on this occasion.

Bob Keeling returned from the Banff Hospital a few days ago, fully recovered from the effects of his recent operation.

R. R. Martin returned to the Colony on Tuesday from the States, bringing with him two prospective settlers.

Mrs. Grieve entertained Mr. and Mrs. E. Small and family to dinner Sunday night.

Quite a large number of the community turned out for a good time on Friday night at the home of Mr. and Mrs. Jay Ryerber.

Willie Teitz left on Sunday for Lacrosse where he will enroll as a student of the Junior College of the Stevensville High School.

Starting at the Kory farm, about fifteen miles south of Jenner, the fire spread to the prairie grass and, fanned by a strong south-west wind which sprang up, it travelled rapidly in a north-easterly direction.

The prairie grass, brown and dry as kindling, was soon set afire and the flames travelled with such intensity before the high wind that it was next to impossible to stop it.

The flames leaped wide, Reginald and R. A. Sandgate and raced on to cause further destruction. Thousands of acres of pasture land in the Jenner area were burned, and some of the ranchers, including M. Stapleton and T. Owen, also lost large areas of pasture.

Now fire started.

It was brought out in the evidence that about eight o'clock in the morning of October 14th Kory set fire to an old straw stack on his farm. Surrounding the stack the stubble had been double disced. About ten acres of stubble were set afire and then the south west. A "whirlwind" swept across the field, picked up a quantity of the burning straw, carried it a distance of several hundred yards to another straw stack which immediately caught fire, and then on several hundred feet farther to the prairie grass.

Mr. and Mrs. Kory, their wife, and their two children, were up in bed as they set to subdue the fire before they set the whole country afire, but their efforts were futile, and the fire was soon burning furiously in the dry grass over a large area.

Corp. Dunlap, of Jenner, and J. N. Caywey, of Wm. McLaway, were counsel for the accused.

LARGE CROWD ATTENDS ST. COLUMBA'S WHIST DRIVE AND DANCE

The whist drive and dance given by the members of St. Columba's R. C. Church last Friday evening, Oct. 18, was attended by a large crowd from many of the neighboring districts.

Cards were played during the early part of the evening, and the prize winners were: lady's first, Mrs. H. D. Bacon; lady's consolation, Mrs. E. Granlund; gentleman's first, S. Harrison; lady's consolation, Mrs. E. Lund; gentleman's consolation, Mrs. J. G. Caywey.

The dance will start at 9 o'clock and at 11 o'clock the costumed dance will fall in line, for the grand march and the judging will follow.

Laurel is to be served by the members of the Women's Institute, and they are making preparations to provide tasty refreshments.

Special music has been engaged for the masquerade dance, and the band will perform on the violin and banjo.

Mrs. Asseline, of Quesstown, an accomplished pianist, will perform the ivories. Manville Anderson, the young musician from Husar, will play the saxophone, and Ward Simpson, our own juggling master, will amaze us with his skillful dexterity.

Mr. and Mrs. E. R. Heldt and Mr. Jimmie Dean Eason Cowen, and Mrs. Stuss were guests for dinner at the Gamble home Sunday.

Fri. & Sat., Oct. 30 & 31 D. W. Griffiths presents

## "DRUMS OF LOVE"

## The Average Man and the League

With the closing of the tenth assembly of the League of Nations it is well for those, both in the cities and towns, and the country districts, to get some idea of what the League means to the average citizen.

It is important for the man in the street to know the aims and worries of life; it is important for the man in the office to know the aims and worries of what the League means to him. All of us are somewhat hazy about world politics, especially in these days when indifferent crops and business complications make us apt to concentrate on our own immediate affairs. Occasionally we hear high sounding phrases glorifying the accomplishments of the League, and we are apt to be sceptical of cynics who advise us to go about our business and take no stock in an agency which can never have any beneficial or practical effect on our lives.

Yet the League and what is done at Geneva are of tremendous concern to all of us. A well known Canadian writer has said: "The League of Nations is not the infallible and mighty thing described in superfluous rhetoric by certain persons; the nations do not tremble with fear at its frown. It has disengaged from itself, vis-a-vis, a number of countries, the right to call attention to its point of view. Yet despite all of this and notwithstanding some failures, the League has more justified itself. In ten years it has prevented ten wars and become an effective central agency for the consideration of crises and the employment of common-sense arbitration in great and small disputes."

Some people have thought that the League ought to be able to almost automatically put an end to all fighting between two South American republics, or prevent Arabs slaying Jews in Palestine, in the twinkling of an eye. Such action is almost beyond the power of any agency devised by man. Born of jealousy, avarice, racial and religious antipathy may blaze like a wildfire over a moment and justice and common sense are powerless to extinguish it. But the League has time to think and again prove that once the first outbreak is spent, it can prevent the trouble spreading and restore peace and sanity by conciliation, and if necessary, the invoking of economic and armed pressure.

The League of Nations, in short, has won the respect of the world, not only as an agency that can prevent war, but also as one that has grown through the example of interdependence of modern international life.

Canada, like the other nations, and the citizens of Canada, in town and country, must stand foursquare behind its efforts if our children and our children's children are to be delivered from those horrors which took the flower of our youth, and made the world a nightmare of strife.

Canada has, up to the present, taken a worthy place in the councils of the League of Nations, and has shown that it is willing to support the Canadian contribution, realizing that to a greater extent, perhaps than most Old World nations, Canada's position is an unusual one, the outcome of a sincere desire to promote world peace in the interests of all, and not chiefly for the purpose of promoting "Canadian" security or advancing purely Canadian interests.

Canada's future contribution can only be measured by the degree of interest manifested by its citizenship and the support extended by the Canadian people to their Government in all efforts put forth to strengthen the League and enlarge the scope of its humanitarian and peace-promoting programmes.

### A Pertinent Question

Canada last year produced 2,414,363 tons of newspaper, valued at \$144,465,322. Pulp and paper is now the Dominion's chief manufacturing industry. But what are Canada and the United States doing to anticipate conditions 20 years hence?

### London's Oldest Bank

London's oldest bank is the Hoare's, the age of which cannot be certainly stated; but there is in existence a record dated 1632 in which it is mentioned that in that year with Lawrence Hoare, who was in business as a goldsmith.

Wall papers were first used in the 17th century.

The earth is believed to be solid at least half way to the center.

**Meat Consumers Protected**  
The beef breeding and trading service directed by the Dominion Department of Agriculture went into effect throughout Canada, September 23rd. The object is to protect the consumer, as far as the quality of the meat is concerned.

### High Quality Seed

**Inspection Shows ample Supply To Meet Requirements**

G. M. Stewart, head of the Dominion seed branch at Calgary, states that the acreage of grain growing fields of grain for numbers of the Canadian Seed Growers' Association, shows it can be reasonably expected that there will be an ample supply of seed of high quality to meet requirements for next year. Yields seem to be somewhat higher than last year.

Though I am now in my 60th year, I am feeling as well and smart as I am at 35, and am enjoying life once more.

You can get these pills through your druggist for 10 cents or 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Deposits Are Important

**British and American Capital Interests in Manitoba**

"British and American capital is definitely interested in the possibilities of tin in Manitoba," according to the Free Press Evening Bulletin.—"The British found tin in many places, and work is in progress in two or three camps which go far towards proving whether or not it is to be found in commercial quantities. But whatever the outcome, both British and American capitals intend to be strongly represented, because of the supreme importance of such deposits."

### Receives New Appointment

Dr. Stanley L. Smith, research animal disease at the University of Saskatchewan, has been appointed director of veterinary service for the Ontario Research Foundation. —

No need to suffer with constipation or the risk of passing them, know them surely and painlessly with Holloway's Corn Remover.

The white package of Diamond Dyes has both packages.

Diamond Dyes are the finest dyes you can buy. They are made from the purest anilines in the world. They contain the very highest quality dyes that can be produced.

Diamond Dyes give such soft, light, even colors, and are so strong that they are without spotting or streaking; that enable them to keep their brilliant brilliance through wear and washing.

Next time you have dyed to do, try Diamond Dyes. It is so simple it is to use them. Then come back to us.

You will surely agree that Diamond Dyes are the best.

The white package of Diamond Dyes

contains the highest quality dye prepared for general use. It will dye or tint silk, wool, cotton, linen, rayon, or any fiber that can be dyed. It is a special dye, for silk and wool only. With it you can dye your clothes, hats, stockings, and shoes to a rich, brilliant color.

# Ramsay MacDonald Brings Message of Peace To the People of Canada

Ottawa.—As to the capital of the United States a few short days ago, Mr. Ramsay MacDonald, prime minister of Great Britain, brought to the capital of Canada his ringing message of peace. But he couched with the word "peace" the words "national honor." Canada, Great Britain, and other nations which comprised the British Commonwealth must not forget that their sacred honor was involved in the crusade for peace. They must remember that fundamental thing—they were signatories to a pact of peace.

The steps of the Canadian parliament building, the home of Canada's legislators, the voice of the prime minister of Great Britain speak to earnestness as he emphasized his words.

"You kept your own promises," said Mr. MacDonald, "and I kept my part of the peace pact." He then added: "It is a fact that in this document their honor is involved."

The gathering, chattering crowd on the pier followed as her frail figure appeared on the deck above them.

"Madame Curie," the whisper went around.

Her steps quickly moved up the American stairs. The Canadian cabinet had arrived. The Duke of France, and by Owen D. Young, who had come down to meet her; Miss Marie Skłodowska Curie, co-discoverer of radium, set foot for the second time on American soil.

She was to know her fellow-scientist, Thomas A. Edison, and attended a dinner given in celebration of the 50th anniversary of his invention of the incandescent light, in Ottawa.

Mme. Curie will be guest of President and Mrs. Hoover, at the White House, October 29 and 30, and will receive while there a cheque for \$50,000 raised in this country for the cause of a group of women who will present the Radium Institute at Warsaw, Poland, her native city.

The gathering, and all fell to the British Empire in preparation to perform sacrifices in order to ensure that national honor remained unassailed to the end.

The gathering, to which Britain's Labor premier spoke was one of the most important held that day. He had the best of facts in his hands on the continent of America. Around the white horseback which was the banquet table, were grouped the prime minister of Canada, the leader of the Conservative party, the leader of the Liberal cabinet, members of the privy council from the four corners of the Dominion, and the highest officers of the Canadian judiciary.

There were 132 persons present. According to custom, when the government premier, the duc de la Chambre, and as representative of the king would attend, and undispersed in both theatrical capitals.

The words of the speaker, whether grave or gay, found ready response in the minds of those present. It was indicated by the constant ripple of applause which rang round the table. That was the spirit of the leaders of the Canadian people was amply typified by the speeches of the prime minister of Canada, Rt. Hon. W. L. Mackenzie King, and Hon. R. B. Bennett, leader of the opposition.

The speech which Mr. MacDonald had was indicated by Mr. King when he announced that the cabinet had passed an order-in-council conferring the rank of a member of the privy council upon Canada upon the dissolution of parliament.

All that Great Britain was attempting to do was present to fulfill national honor, said Mr. MacDonald. The great curse in the past had been that the women and children of our country had always refused to practice it. Now the time had come for a change.

The great problem we have to face is the development of our democracy, said the Labor leader. The period between so-called military security and the security of peace must be gone through. Here it was that the faint ones of the world might fail, might shrink from the help of their own countries.

We have to lead the world gently across its difficulties," said the Premier. "And the crossing must be made as happy and confident as possible until we come smiling over to where real peace and security may be enjoyed."

## Literary Made Public

Prince of Wales Will Speak in Eight Western Cities

Ottawa.—The literary of Premier Mackenzie King's western tour made public; the prime minister will speak at Winnipeg, Saskatoon, Prince Albert, Edmonton, Prince Rupert, Vancouver, Victoria, and Regina.

Hon. J. L. Ralston, Minister of National Defence, is making a tour of inspection of the West at the same time and will therefore accompany Mr. King for much of the tour. Senator Andrew Haydon, of Ottawa, will also accompany the prime minister.

## Madame Curie Visits America

Came To Attala Celebration Held In Detroit For Edison

New York.—Madame Curie, whose slender, a little old lady in black came slowly down the gangplanks from the liner "Le France" yesterday, the Germans promised to restore the Louvre's contents, and since the armistice was signed, an additional amount of 500,000 volumes, including 900 manuscripts, have been added.

The bustling, chattering crowd on the pier followed as her frail figure appeared on the deck above them.

"Madame Curie," the whisper went around.

Her steps quickly moved up the American stairs. The Canadian cabinet had arrived. The Duke of France, and by Owen D. Young, who had come down to meet her; Miss Marie Skłodowska Curie, co-discoverer of radium, set foot for the second time on American soil.

She was to know her fellow-scientist, Thomas A. Edison, and attended a dinner given in celebration of the 50th anniversary of his invention of the incandescent light, in Ottawa.

Mme. Curie will be guest of President and Mrs. Hoover, at the White House, October 29 and 30, and will receive while there a cheque for \$50,000 raised in this country for the cause of a group of women who will present the Radium Institute at Warsaw, Poland, her native city.

The gathering, and all fell to the British Empire in preparation to perform sacrifices in order to ensure that national honor remained unassailed to the end.

The gathering, to which Britain's Labor premier spoke was one of the most important held that day. He had the best of facts in his hands on the continent of America. Around the white horseback which was the banquet table, were grouped the prime minister of Canada, the leader of the Conservative party, the leader of the Liberal cabinet, members of the privy council from the four corners of the Dominion, and the highest officers of the Canadian judiciary.

The words of the speaker, whether grave or gay, found ready response in the minds of those present. It was indicated by the constant ripple of applause which rang round the table. That was the spirit of the leaders of the Canadian people was amply typified by the speeches of the prime minister of Canada, Rt. Hon. W. L. Mackenzie King, and Hon. R. B. Bennett, leader of the opposition.

All that Great Britain was attempting to do was present to fulfill national honor, said Mr. MacDonald. The great curse in the past had been that the women and children of our country had always refused to practice it. Now the time had come for a change.

The great problem we have to face is the development of our democracy, said the Labor leader. The period between so-called military security and the security of peace must be gone through. Here it was that the faint ones of the world might fail, might shrink from the help of their own countries.

We have to lead the world gently across its difficulties," said the Premier. "And the crossing must be made as happy and confident as possible until we come smiling over to where real peace and security may be enjoyed."

## Will Meet In Toronto

Canadian Fair Officials To Attend Meeting In November

Saskatoon—The dates for the annual meeting of the Canadian Association of Exhibitors will be November 22 and 23, S. W. Johns, president of the association and manager of the Canadian National Exhibition, has announced. The meeting will take place in Toronto.

Mr. Johns and Archie Wilson, president of the Saskatoon Exhibition, have been appointed delegates from the local association.

Data for the meeting have been set a week earlier than usual to allow delegates to attend the "All-Canadian Dinner" in the Royal York Hotel, November 20. At the dinner programs of the World Grain Conference, to be held in Regina, the meeting will be held in the Royal York Hotel.

Delegates will also have an opportunity of attending the Royal York Hotel, in Toronto, November 20.

During the same week officials of the World Grain Conference, to be held in the Arts and Science dinner.

Millan, general manager of the extensive Canadian Pacific Railway telegraphs. The advent of automatic sending and receiving instruments and other appliances eliminated much of the heavier work formerly done by men, but the operators still require a certain degree of skill to become operators as the automatic machines have a built-in board like that of a typewriter, and a knowledge of telegraph code is not required. Roughly forty per cent. of the operators in the employ of the C.P.R. telegraphs are women, about twenty-six per cent. working on Morse telephones, and forty-two on the automatic machines. The photograph shows two girls operating one of the battery of sending machines. Inset is Mr. McMillan, who controls 160,000 miles of wires.

## Famous Library Restored

Louvre Library Bids In Some Books Than Before War

Brussels.—When the Louvre Library was destroyed by fire, in August, 1914, it captured some 40,000 volumes, including 1,500 incunabula and several hundred manuscripts from the twelfth and thirteenth centuries, valued at more than a million dollars. Today, it has been completely restored, though some losses are richer than before.

By virtue of the Versailles Treaty, the Germans promised to restore the Louvre's contents, and since the armistice was signed, an additional amount of 500,000 volumes, including 900 manuscripts, have been added.

The building, chattering crowd on the pier followed as her frail figure appeared on the deck above them.

"Madame Curie," the whisper went around.

Her steps quickly moved up the American stairs. The Canadian cabinet had arrived. The Duke of France, and by Owen D. Young, who had come down to meet her; Miss Marie Skłodowska Curie, co-discoverer of radium, set foot for the second time on American soil.

She was to know her fellow-scientist, Thomas A. Edison, and attended a dinner given in celebration of the 50th anniversary of his invention of the incandescent light, in Ottawa.

Mme. Curie will be guest of President and Mrs. Hoover, at the White House, October 29 and 30, and will receive while there a cheque for \$50,000 raised in this country for the cause of a group of women who will present the Radium Institute at Warsaw, Poland, her native city.

The gathering, and all fell to the British Empire in preparation to perform sacrifices in order to ensure that national honor remained unassailed to the end.

The gathering, to which Britain's Labor premier spoke was one of the most important held that day. He had the best of facts in his hands on the continent of America. The words of the speaker, whether grave or gay, found ready response in the minds of those present. It was indicated by the constant ripple of applause which rang round the table. That was the spirit of the leaders of the Canadian people was amply typified by the speeches of the prime minister of Canada, Rt. Hon. W. L. Mackenzie King, and Hon. R. B. Bennett, leader of the opposition.

All that Great Britain was attempting to do was present to fulfill national honor, said Mr. MacDonald. The great curse in the past had been that the women and children of our country had always refused to practice it. Now the time had come for a change.

The great problem we have to face is the development of our democracy, said the Labor leader. The period between so-called military security and the security of peace must be gone through. Here it was that the faint ones of the world might fail, might shrink from the help of their own countries.

We have to lead the world gently across its difficulties," said the Premier. "And the crossing must be made as happy and confident as possible until we come smiling over to where real peace and security may be enjoyed."

## WITH MAGALPINE PARTY

Samuel Larcombe, Famous Wheat Grower, Is Recipient Of Gifts From Admirers

Birtle, Man.—Samuel Larcombe, aged pioneer, agriculturist, orator, and public speaker, director of wheat research, grains have made him internationally known, tonight sleep in a new house, located amid the rolling and fertile fields overlooking the picturesque Red Tail Creek.

Today he celebrated his hundreds of friends by the Lieutenant-Governor

of Manitoba, Hon. James D. McGregor, and representatives of the provincial government, the house was presented to Mr. Larcombe by his wife, to whom he gave a gift which was greatly enriched Canadian agriculturists. Recently the Larcombe home was destroyed by fire.

Friends throughout Canada com-

mitted to the reconstruction of the modern home.

**Movie Actor Killed**

Chicago.—Richard Pearce, editor of Northern Miner, the best known mining editor,

was killed in a shooting accident on his return from the Macalpine party on his second trip across the barren lands. On his fall and in his fall suffered several sprains, one of them fatal. Cinino was performing for moving picture cam-

eras.

**ASK FOR FREIGHT RATE EQUALITY FOR THE WEST**

Major Kingsford-Smith Plans London-New York Trip Next

**Arranges Atlantic Flight**

Vancouver.—For Charles Kingsford-Smith, pilot of the Southern Cross, has pretty well completed arrangements for a non-stop flight across the Atlantic from London to New York next May or June, he said following his arrival in the city in which he spent several years of his life.

"I have one more ocean to cross," he said as he referred to the 70,000 miles he plans the Southern Cross has flown since it made its transatlantic voyage last year. "We left the Southern Cross in the Fokker factory, in Holland, for an overhaul," he said. "She will be practically rebuilt, but the old engines, which have crossed the Pacific and Indian oceans many times, have been sent to Australia on many trips will be in the Southern Cross when we start west across the Atlantic.

**Urge B.C. Alberta Highway**

B.C. Good Roads League Endorsed Resolution To Government

Harrison Hot Springs, B.C.—A resolution asking the provincial government to grant a permanent highway from Harrison to the government of British Columbia.

Alberta, quickly as possible, by the government of Alberta, and should there be no highway, then a temporary one on the basis of the rate basis than in the rate basis in any other part of Canada.

Consulted with Ontario, Quebec, and the City of Winnipeg, as well as counsel for the two railway companies, have given notice of their intention to oppose the appeal.

Opponents have not yet disclosed

their attitude but are reported

to support the appeal.

A majority of counsel and the cabinet were agreed that the provincial government should be asked to grant a permanent highway from Harrison to the government of British Columbia.

Alberta, quickly as possible, by the government of Alberta, and should there be no highway, then a temporary one on the basis of the rate basis than in the rate basis in any other part of Canada.

Major prize winners at the High-  
lighting meeting at the Scotiabank Festi-  
val recently held at Bassano are as-  
sumed to follow: — Pipe-Bar-  
low, Donald McLeod, the  
Gowans, Donald McLeod, the  
Highlanders of Winnipeg, the winner of  
the special inter-regimental competition  
and the holder of the Canadian  
Canadian Highland units and holder  
of the E. W. Beatty Trophy; Pipe-  
McDonald, the winner of the  
Highland meeting at the Scotiabank Festi-  
val is the winner of the special trophy  
competition open to all regiments  
and pipe bands. The pipe band of  
a pipe head officially connected with  
any regiment or unit of the  
Canadian Highlanders, the winner of  
McDonald, Royal Highlanders,  
Montreal, took the highest aggre-  
gate of points for the year all  
the year piping events.

According to figures obtained by  
the Canadian Pacific Steamships  
Limited, the port of Vancouver now  
ranks second in tonnage handled, just  
outstripping San Francisco and Los  
Angeles in volume of outward and  
inward shipping traffic and ton-  
nage of exports and imports.

The Royal Wife  
Lord Ebbitham tells that "It is  
said that Mussolini was present at  
some function with the King of Italy;  
he said something that the King dropped  
his handkerchief. Mussolini stooped  
quickly and returned it, for which  
the king expressed his thanks pro-  
fusely, almost profanely."

"Some time later asked him why he  
was so glad to get his handkerchief  
back. 'I was delighted. You see, it  
is the only thing left that I am al-  
lowed to put my nose into.'

Petticoat Government  
"Why did you break your sash  
with that school teacher?"  
"I didn't show up one night, and  
she wanted me to bring a written  
excuse signed by my mother."

Cave Bride  
"Elsie has been married only two  
months, and last night she struck her  
husband with a rolling pin!"  
"The old-fashioned thing! Why  
didn't she use a tennis racket or golf  
club, my dear?"

THE BASSANO MAIL

Wallace J. Smith  
Editor and Publisher  
Subscription—\$2.00 a year in Canada  
\$3.00 in the United States

Women have invaded practically  
every profession. They are found  
in medicine, in law, in architecture,  
in parliament, in the senate, and  
some may even be found in the  
kitchen.

Scientists tell us that every one  
hundred years the earth's day gets  
shorter by one-thousandth part of a  
second. Yes, we've noticed that  
admittedly there is hardly time to  
get things done.

Father can soon put away his golf  
clubs and get out the storm windows.

A cynic says the reason women  
want to get into the senate is because  
there are no other men there.

The horse-legged fad has become  
quite fashionable, but hose still have  
their supporters.

THE TOWN PARK  
A town park for Bassano is the ob-  
ject of a recently appointed committee  
of the Board of Trade. The  
committee has plans of a  
tentative nature, and expect to com-  
mence work on the park site next  
year. The site chosen is just west  
of the existing pool.

It will take a number of years to  
create a park. Irrigation ditches  
must be made, trees and bushes  
must be planted, and it will require  
a number of years' growth before  
the saplings are large enough to be  
shade trees. But the main thing is  
to make a start next year, and once  
started the park will improve, de-  
velop, and become a beauty spot  
in the town.

CALGARY  
HOLLOW BACK

HOLLOW BACK of Galaxy plan to spend  
several million dollars to provide its  
citizens with a pure water supply,  
but continues to dump raw sewage  
into the Bow River and endanger the  
water supply in towns to the east.

Calgary is not only unfair in  
doing this, but the city is disregarding  
the health regulations of the  
provincial government.

The Provincial Department of  
Health at Edmonton has instructed  
the Calgary city council to build a  
disposal works and stop dumping raw  
sewage into the Bow River. This  
plant, in the opinion of the Department,  
must be completed within five years,  
one unit to be built each year, com-  
mencing with 1929.

So far Calgary has not made a move  
to carry out the instructions of the  
provincial government, and the city's  
sewage is still a menace to the  
public health. The water supply,  
Calgary is building storm sewer  
sidewalks, and paved streets. Plans  
are being made for the expenditure  
of a huge sum for the building of a  
water supply system. But not a word  
is mentioned concerning the  
building of a sewage disposal plant.  
It does not appear that the public  
expenses of the sewage disposal plant  
are mentioned in the newspaper;  
it is not mentioned in the  
newspaper; city officials refrain  
from discussing it. In Calgary, men-  
tion of the sewage disposal plant is  
taboo.

Calgary is under obligation to  
build this plant. It appears to  
take no steps to meet the fulfill-  
ment of this obligation to the last  
moment. This attitude is unfair,  
and unbefitting to a city with the  
position and prestige of Calgary.

CATHEDRAL OF  
THE HEART  
(by Joseph Auslander)

There are cathedrals built not of  
stone,

Whose dark, sombre grandeur is  
no part;

Of time or place, but with the bleed-  
ing heart;

Bastions and battlements with our  
blood and bones;

And neither Chartres nor Rhelms nor  
Avignon.

Can boast no radiant and rich an ar-  
As this tomb without benefice or  
chart;

Raises a roof to the celestial throne,  
Here in the human heart, the archi-  
tect;

Of our anonymous and common cares  
Fashion from daily grief the golden  
stars;

And, sometimes tear by tear, his  
hands strove;

A tabernacle where eternal hymns  
Are heavy with the dust of our dead  
dreams.

"Dear father! I am in the city and  
am broke and have no friends. What  
shall I do?"

The father wrote back: "Dear son!  
Make some friends quick."

BASSANO

—

RACK HOME  
(by Harriet Monroe)

Egypt, Jerusalem, Stamboul,  
And Athens of the crystal hill;  
Apollo of Olympia.  
Tall as a tower and marble-silky

Italy shining in the sun,  
And Sardinia by the golden sea—  
These have been mine since last I  
stood.

Where now my own comes back to  
me.

I met the dark kings where they lay  
Mummied and folded close in gold,  
And listened in their tombs to hear  
The braying talk their sculptors told.

Italy shining in the sun,  
Where one man, speaking words of  
fire, burst up the Roman power and left  
A world emboldened with his name.

And Greece, guarding her shattered  
stones,

Lifting white columns to the sky—  
I saw her pale her Parthenon  
The proud beauty can never die.

From now the crowded little lands,  
Gun-weighted with their ancient  
hates.

I come, hearing a mighty voice  
Calling their thunder-roll of states.

The prairies hear it, and the hills,  
The huge lakes, the far-folding seas—  
A radio call out of the air,  
Enormous, insolent and free.

And who am I to question her  
Where among skyscrapers she waits!

The nations I have trailed are here—  
Hate dies in them within her gates.

Protecting God

Stern Father (to son departing for  
boarding-school): "Now, don't let  
me hear any bad reports about you."

Son: "I'll try hard, Dad; but you  
know how these things leak out."

Seeing Double

Judge: "What brought you here?"

Accused: "Two policemen."

Judge: "I don't mean that—drunk,  
I presume."

Accused: "Both of them."

## Here and There

It is the desire of the teachers and Dance Society, thirteen in number, are calling for Canada on Saturday, October 27, to take part in the first annual dance arranged by the Canadian Pacific Railway at the Royal York Hotel, Toronto.

The party is under the direction of Mrs. John Kennedy, leader of the practice of English Folk Dances, has agreed to do all of the arrangements.

It is the desire of the girls to believe that the dancers will here will result in the popularization of English dances in Canada.

Approved plans calling for construction of a section of line two years will enable the Canadian Pacific Railway to extend the Cut-Off line from the main line and eventually to the fertile farm lands of the vast Meadow Lake area. This will enable the grain chowans to the plains region lying towards Calgary and thence to a point where the railway construction will meet the turning of a new page in the history of one of the most important agricultural sections of Western Canada.

"The mail must go through," slogan of the air mail service was well illustrated when B.S. men took off from their docked plane with a heavy mail consignment which in weather had preceded the last off the coast to the usual port. Mails were rushed four miles to the Quebec airport and delivered half an hour later. They were delivered by another special plane to the Dorval station about two hours after the Duchess had docked.

Two hundred and forty-eight mink and four foxes, valued in all at \$15,000, were carried recently by air mail from Montreal to Ontario and Manitoba and shipped by S.S. Montrouge to France. They were sent by the Canadian Air Express one of the largest shipments of fur-bearing animals to European breeding farms of recent months. Demand is high in Great Britain, France, Germany, Holland and Switzerland.

For the second time in three years, the independent Bassano Association of America held their annual convention at the Chateau Frontenac, Quebec, this October. Over 4,000 delegates came from all parts of the United States and Canada and the convention was addressed by Mr. W. H. Beatty, chairman and president of the Canadian Pacific Railway.

Deaten, out of world series, beaten three times by the Yankees, Boston Terrier, Shaggy coach, Roy Sheril, pitcher and B. Bengough, catcher, and their粳ionists, won the ten-day tour in the Laurentians, hunting section north of Montreal. Hunter, who is from the region and before reported fine sport, and one before brought in a 52-inch moose head, brought in a trophy.

Three years ago there were only four grizzly cubs in Alberta belonging to the Alberta Wheat Pool. Now there are 437, representing an increase of 100 per cent. in three years. The introduction of complete and anti ticks has speeded up the growth of the Canadian prairies to a remarkable degree.

Construction of the 18-story Marine Building on the corner of Burrard and Cambie Streets, Vancouver, has begun. When completed this will be the tallest building in Canada and the greatest building, the new Royal York Hotel, of the C. P. R., is 23 stories in height.

A monument to one of the builders of the Canadian Pacific, Mr. William Van Horne, first general manager and second president of the Canadian Pacific Railway, was responsible for the selection of Vancouver as the western terminus of the continental line; a decision that resulted in the growth and prosperity of the city, a great resort; and the citizens of the city propose to commemorate his foresight.

Every year the Canadian Pacific spends over \$100,000 in advertising its services and Canada's industrial and tourist attractions throughout the world.

## HOW LONG WILL WE LIVE?

St. Albertans are able to prove today, on the average, a child born today will likely live to 66 years of age instead of 40 years, which was the case 50 years ago.

This has been brought about chiefly by better care of infants, a tremendous reduction in the diabetics of children, which used to take such a heavy toll of infant life, pure water, safe milk and improved sanitary conditions.

There is also a corresponding increase in the expectation of life among adults.

The expectation of life at 60 years of age is not appreciably greater today than it was during the last century.

One interesting point that we learn is that persons who live long come, in general, of a family.

"Yes," Johnny volunteered. "I'm mean that a member of a long-lived family is more likely to recover from an attack of an acute disease, but rather that if he she does escape from an attack of an acute disease, such as those which destroy life in infancy and the adult years, such persons will be more likely to live to advanced ages."

Many people have the idea that health work's sole aim is to prolong life. This is only partially true, because the ideal sought is rather healthier years than more years. Better health means that persons are so closely linked together, it is fairly said that the objective of health work is not in prolonging life, but to make people happier while they live.

We do not know why some families live what we might call greater vitality and longer lives than the average. We do not know why Old Parr lived to 153 years. It may be, of course, that many years have been added to his life in the retelling of his story. We do know, however, that to the adult who desires to increase the expectation of years of health, we can say that in all things is essential and should all in food. An interest in life must be maintained whether it is in work or in play, such as a hobby. "Worry must be cast out as it is the thing which wears out the machine.

Questions concerning health, addressed to the Canadian Medical Association, 184 College St., Toronto, will be answered personally by letter.

## THE LAVING HOUSE IN WINTER

## (Experimental Farms Note)

Now that the time for the winter hatching of pullets has arrived, it is well to recall just what is necessary to fulfill the requirements for greatest results in profitable returns. Pullets to give maximum results, must not only be well bred and well fed, they must be comfortably housed, which means that the house must be well lighted and ventilated, without draughts, and bright and cheery. Such a house properly furnished to allow maximum of unobstructed floor space is a satisfactory foundation on which to start the season's work.

To ensure such conditions see that the house is built so that all eggs in the nests are well situated, that the floor is sufficiently elevated above the surrounding ground so that it will be well drained, and if you have been troubled in the past by a moist condition on the roof or ceiling put in a straw loft and make openings in the gable ends of the house to allow of a cross draught of dry straw.

By all means use drooping boards under the nests and clean them off regularly so that they will not contain the air which the fowl have to breathe. When the outlets are brought in from range in the fall try to make conditions as nearly as possible like those to which they have been accustomed to. They have been grass living in open houses, if when they are brought in they are put in close houses you may be almost certain that you will have trouble with fall colds and croup.

When they are put into their winter quarters the house should be kept warm enough so that the birds allowed to spend the days in the yards surrounding the house. As the weather gets colder the windows may be gradually closed at night but keep them open during the day, so long as the sun is shining, even in the severest weather.

The birds will do well, yes, I say, as long as the weather is such as the houses are dry and thoroughly ventilated without draughts.

"I tell you, times have changed," you bet. It used to be that when a man was run down he took a totle, and now he takes an ambulance."

## CANADIAN EXHIBITS

## IN BELGIUM

## DIVERSE EXHIBITS

## in the International Exhibition at Antwerp, Belgium, this year, according to an announcement of the Department of Trade and Commerce.

The government is spending about \$30,000 in erecting a pavilion on one of the choicest sites of the exhibition.

This pavilion will cover an acre and a half of land, and will contain displays of the natural resources of the Dominion as well as a number of exhibits denoting the industrial, economic, and agricultural conditions in Canada.

The teacher had been talking about famous proverbs.

"Now," she said, "can anyone tell me what this means: 'Out of sight out of mind.'"

"Yes," Johnny volunteered. "Invisible and insane."

## Mysteries Are Wrapped Up In Strange Disappearances Of Many Deep Sea Vessels

Denmark has abandoned, as hopeless its long search for a clue to the fate of the full-rigged clipper training ship "Copenhagen" with sixty crew aboard, seen for the last time in the throes of her struggle with a gale off the coast of Norway in the South Atlantic. During the seven months of weary exploration that has intervened, not so much as a spar, a lifeboat or a pieces of floating wreckage have reached the shores of Denmark, who undertook the quest for the missing ship. The mystery that envelops the Copenhagen closely resembles that attending the disappearance of the United States clipper "Empress" and it has prompted the New York Star to record other tragedies of the sea that also remain unsolved.

In the latter part of 1928 an American steamship came to the Pacific. Nothing indicated that the schooner had suffered from disastrous weather or that it had been swept by a high sea. Bloodstains were found on the paper in the cabin, however, which showed that there was neither officer nor crew aboard, and all the boats were missing. What had occurred aboard the craft will, in all probability, never be known. Two years before this the captain of the Full-rigged "Galaxy" in running Cap Horn, found a three-masted vessel embedded in icebergs. The craft was firmly fixed in a cleft of the ice and stood twelve feet above the water's edge, with the exception of a broken topmast, appeared intact. There was no sign of life aboard, and all the boats were in place. He reported the circumstances and the vessel was subsequently identified as one long reported missing, but no one was able to offer an explanation of its loss.

A French steamer full upon large junks in the Channel, which up to now had been the master found was deserted. In the junk he came upon a cargo of silk and a considerable sum of money. The only explanation was offered by a Chinese man, one of the crew, who said that he was a sailor, a member of a band of pirates who had left the vessel in fear that the steamer was a disguised warship. As strange a discovery was reported by the captain of a Dutch liner plowing along the coast of Brazil and the South American coast. He became a tramp steamer destitute of life except a starving dog. He found evidence that the crew had only recently become members of the vessel. His theory was that when the ship had become becalmed they had taken to a small boat in the hope of towing the vessel, but had been swept away by a strong current. The captain had listed many missing ships, but in this case, too, only conjecture was left regarding the fate of its crew.

Not always does Old Man Sea leave so many a mystery. It is because he restored those missing ships to human ken that another chapter could be written of their disappearance.

### A Strange Coincidence

Peter Arnett, a year-old boy, at Hull, England, who was knocked down by a motor omnibus and seriously injured, was being taken in an automobile to Hull Royal Infirmary, when the ambulance was stopped for a man who had been injured at work. He proved to be the injured boy's father.

Mr. Brown eyes the joint critically.

"I'm your mother," she said to the bather's boy, "that I shall buy my most elsewhere if he doesn't correct the error of his 'weighting.'"

## Canada's Dairy Industry

**Canadians Are Eating More Butter Than Ever Before**

Dairying is a rather flourishing industry in Canada, right now. Canada is eating more butter than ever before. We are now consumers of this product. In 1928 we consumed 20.31 pounds per capita in this country as against about 18 pounds per capita in the United States. This increase is due largely to the elimination of oleo-margarine from our market, although it is sold in the States. Also out butter is a better butter and induces a liberal use.

The only real competition our dairyman faces is in New Zealand Butter, which is imported during the winter months, in small but increasing quantities.

Canadian producers find that their storage products must compete against the fresh New Zealand Butter, and the situation is difficult. But the effect of the importations has been exaggerated.

In cheese, Canada is building up a strong cheese industry.

The words "Cheese" to the fact that Canadian Cheddar Cheese is of high quality and sells at a premium in British markets over other imported cheese. This fact was referred to in a recent article in the Canadian Business Review published by Cockfield, Brown & Co., advertising and merchandising experts of Montreal.

The article was from the pen of Duncan Marshall, former vice-president of the company who is now a member of their staff.

There is a lesson in our experience with cheese. By improving quality, by grading properly and by establishing good marketing facilities, we can compete with the best cheese in the world.

Our experiments this year confirm the earlier prospects, said Dr. Griswold. "No names have yet been given to the new varieties, but we believe that when they are produced in sufficient quantities for distribution, we will find that we have the known kind that will reveal the known variety of rust."

## New Varieties Of Rust-Resisting Wheat

**But Production Not Yet Sufficient For Seed Distribution**

Two or three varieties of wheat which will result just have been developed by the Department of Agriculture. They are the "Red Fife," "Red Griswold," "Dwarf" and "Preston," said Dr. Griswold, Deputy Minister of the department.

These new varieties have a range of competition.

Given proper leadership by Dominion and provincial departments of agriculture, our produce could do the same thing.

The greatest danger in the dairy business at the present time is with

in rather than outside of the industry.

It lies in the fact that the demand for cows is so great that many men are tempted to break up their foundation herds when they should be building them up.—Financed Post.

## Held Important Military Posts

Birg-Gen. Sir Gilbert Clayton, high commissioner for Irak, is a native of Manitoba. He is now serving as a political officer in New Zealand. Sir Gil was 54 years of age, and had held several important military posts.

## Rambouillet Sheep

**Considered To Be The Best Breed For The Beginner To Raise**

Although not well known in the province of Manitoba, the Rambouillet breed of sheep enjoys a wider distribution on the North American continent than any other.

They are also called "the blackface sheep" because of their dark-colored fleece, which is usually hardy, and free from most diseases that affect sheep.

They have an excellent quality of wool, the ewes making a good mutton, and a foundation for breeding.

Blackface sheep, like the Rambouillet, a high class flock of any of the blackface breeds may be quickly developed by the farmer who pays careful attention to his breeding practices. There is doubt about the Rambouillet breed, however, as to the best for the beginner in sheep, owing to the fact that generations of breeding on the large ranges, has developed in this breed, a remarkable ability to take care of themselves.

The sheep that are being supplied to Manitoba farmers by the Manitoba Livestock Credit Company, are a carefully selected lot of the Rambouillet breed.

## Merely An Uncle

Lord Macduff, the young son of Prince and Princess Arthur of Connaught, had just learned the words of "Uncle King" and was very fond of the name.

One day, when the King was walking in the grounds at Bagshot, the Duke of Connaught, Lord Macduff was told by his nurse, "Look, there is the King, with Grandfather."

"Oh, no," said little Lord Macduff, "that is not the King. That is my Uncle George."

The only place a woman cannot attain her point is on a lead pencil.

The French perfumery industry is valued at \$36,000,000 annually.

## To Exterminate Insects

**Electric Light Trap Are Now Used With Good Effect**

Light traps and electricity are being used in exterminating insect pests. Electric light traps, consisting of a lamp set directly over a pan of water upon which a covering of oil has been placed, entices the insect, which falls into the oil and is unable to arise.

An electrified screen stable door has proved feasible. The screen is charged with high voltage static, deadly to pests but harmless to humans.

Boy Friend (calling to have dinner with me tonight?)

She: "I'd love to."

He: "Well, tell your mother I'll be over early."

The culture can come from a great height, while the chick or the wren, will pick at objects so small that the human eye misses them.

GOVERNMENT LIQUOR CONTROL ACT OF ALBERTA

Application For  
Beer License

PUBLIC NOTICE IS HEREBY GIVEN that the undersigned intends applying to The Alberta Liquor Control Board for a License to sell Beer by the glass or open bottle for consumption on the premises within the provisions of The Government Liquor Control Act of Alberta and the Regulations made thereunder with respect to the following premises:

That portion of THE HUNTER HOTEL situated and having its eastern eaves and extending 42 feet southward from the main entrance of the said Hotel on the south side of Second Avenue in the Town of Bassano, in the Province of Alberta, and erected on the most westerly 23 feet of Lot 3, in Block 4, Plan 3387, Bassano.

DATED at Bassano, Alberta, this 1st day of October, D. 1929.  
MAUDE F. HIRNIE,  
Applicant.

15-16-c

Angus McArdle could not be persuaded to attend the villa kirk on any pretext whatever.

"How is it, Angus," asked the minister one day. "How is it ye won't come to church?"

Angus made answer that the sermons were far too long to please him.

"Och!" retorted the minister wrathfully. "You'll probably end up in a place where you'll hear no sermon either long or short."

"Ah, well, maybe you're right," agreed Angus placidly. "But it'll be for want of meenisters, ye ken."

CANADA

MAIL CONTRACT

## Here and There

(407)

The transaction with "The Press

Week"

throughout

Canada and the United States

between October 5 and October 13, a special telegram was sent to all agents who had been sent over the entire Canadian Pacific Rail system by Grant Hart, manager of the Bassano Mail, on a proposed Contract for a period not exceeding four years, twice per week on the route.

STILES "The Druggist"  
Bassano and Hussar

## Local News

R. A. Brown, of Calgary, was in Bassano on Wednesday.

Mr. and Mrs. E. N. Gillies were down from Hussar on Wednesday.

Dr. W. G. Anderson and E. Sandford of Wardow, were business visitors to Bassano early this week.

Mrs. Frances Cuttler, late "last Sunday" for Vancouver where she will spend the winter.

A. MacGreer has been awarded the contract for supplying coal to the Bassano school.

Mrs. J. H. Brewer has purchased a house in Bassano. She expects to move to the city early next week.

Dr. B. E. Burton went to Medicine Hat Monday morning to attend the Masonic Annual district meeting.

A. G. Bond was in Medicine Hat Monday attending the Masonic annual district meeting.

The big Haloween masquerade dance comes off Friday night of next week, at the Masonic Community Hall.

The Bassano Women's Christian bazaar, tent and sale will be held on Tuesday, November 5th, at the Bassano Hall.

The Ladies' Alt. of Knox Church will hold their annual chicken supper and bazaar on Wednesday, November 6th.

Sergeant J. M. Cawley, Police Magistrate A. G. Bond, and Wm. McLeary, went to Jenner Wednesday afternoon to attend a police court case.

Dr. Geo. Haworth made a trip to Calgary Monday to bring down the two men, J. Palmer and E. Stinson, for testing the Scott-Sambrooke airplane.

E. Campbell was in Medicine Hat to collect the traps which had reached large proportions, he being taken by Chief Game Warden L. H. Turner of the Alberta Game and Fish Department of Lands and Mines. Last year 7,000 deer hides and about 700 moose heads were exported from New Brunswick largely to game manufacturers in Quebec and Ontario and the U.S.A. The Moose and New Hampshire. "Fin" seals must now be affixed to dead animals before transportation because of laws.

Reports are appearing in the British press that the Prince of Wales stands to make a fortune out of his proposed tour of the British Isles. Some reports have estimated the possible profit as high as £100,000. The prince will travel in the west as sheet guess work, although the Turner Valley which traps are set in the mountains of the ranch has developed oil on a large scale. Meanwhile there are no wild bears to be found on the ranch though drilling is in progress about a mile away.

The prairies are usually associated with wheat and cattle, but they are also a major producer of mineral fuel. The third largest lake on the continent is in Manitoba, and both fresh water in Manitoba, Saskatchewan and Alberta with fish of high quality. In 1927 a total of 40 carloads of whitefish were picked and shipped from these provinces to Minneapolis, Chicago and New York.

## WORLD HAPPENINGS BRIEFLY TOLD

Italy has accepted the British invitation to a five-power naval conference.

The French cabinet has decided formally to accept the British invitation to participate in a five-power naval limitat on conference in January.

To sell British Columbia lumber to New Zealand and Australia, a delegation of lumbermen and operators will leave Vancouver December 11, on the Korangi.

John T. Phelan, 69, superintendent in charge of the Dominion Government Telegraphs in British Columbia, who has been in Vancouver, died at Victoria recently.

Officials of the Union Terminal Elevator Company, of which W. A. Anderson, Winnipeg, is president, have announced plans for the immediate construction of a one million bushel addition to the Port Arthur plant.

Commissioner Lucy Booth-Helberg, youngest sister of the late General Bramwell booth, received orders from General Edward J. Higgins, head of the Salvation Army, to proceed to South America and take charge of the organisation's work there.

Canadian railways earned larger gross operating revenues in 1928 than in any previous year. Freight revenue amounted to \$415,633,456, passenger revenues to \$84,313,902, and total revenues to \$460,172,358. The freight revenue was by far the largest ever earned.

French Government statistics compiled at the end of the year showed that about 1,000,000 passengers, totaling 20 millions daily, most of them children who venture beyond their depth. There is a growing agitation for more stringent regulations regarding life guards.

### Locates Plane At Night

**Mechanisms Tells Distance It Is Away Says Inventor**

A French inventor claims to have solved the problem of detecting the position of an airplane at night. A Van Hollen, a Parisian, claims not only that he does but also locates it. It is accomplished, he says, by means of a mechanism formed of two parts, one raised 400 yards high by a wire and the other suspended, and the other fastened to the ground.

The inventor claims that a "plane can be detected 30 minutes before reaching a city and its height and direction so exactly known as to put it in time of war at the mercy of a few shots from an anti-aircraft gun."

### A Floating Theatre

An old four-masted schooner will be fitted up into the floating stage ship which will be called Pro Arte, and will cruise around the world giving plays representative of German spirit. It will contain a modern stage and seating capacity for 500 persons.

**Planning To Change Desert Into Garden**  
**French Engineers Working On Idea To Irrigate Sahara**

The most stupendous engineering project the world has ever known is in the process of being blue-printed by three engineers of Marseilles, France.

They have spent four years in a preliminary study, and in three years more will be ready to present a plan which will change the entire map of South Europe, join the Mediterranean islands to the mainland, and 430,000 square miles to the possessions of France and Italy, and link the Sahara desert into the world's most prolific garden.

At least a hundred plans for irrigating the Sahara desert have been advanced within 50 years, but none have been so thorough as this.

The scheme is to build two super-dams, one at Gibraltar and one at the Dardanelles and bottle up the Mediterranean until it becomes a fresh-water lake, supplied by the Euphrates and Afras rivers. Enormous pumps would be installed to force this water into canals leading to the desert.

Though the engineers admit that they do not expect the governments of Europe to be kind to their scheme, they seem to be enjoying themselves.

### Thanksgiving Day

**Advance Opinion That Day Of Thanksgiving Should Be Fixed For October**

That is a good suggestion that comes from the Canadian Chamber of Commerce. That Thanksgiving should be fixed for the first in October. There would be a whirlwind of activity around a Thanksgiving that people thought it should be continued for all time. Thanksgiving Day was held in October. Then, with the harvest safely in, the people had time to thank the weather that made every thanksgiving that he was alive.

Now thankfulness for the end of the war has mellowed into melancholy, and the last Thanksgiving that did not fit in with the joyousness that characterizes Thanksgiving of today.

Canadian railways earned larger gross operating revenues in 1928 than in any previous year. Freight revenue amounted to \$415,633,456, passenger revenues to \$84,313,902, and total revenues to \$460,172,358. The freight revenue was by far the largest ever earned.

French Government statistics compiled at the end of the year showed that about 1,000,000 passengers, totaling 20 millions daily, most of them children who venture beyond their depth. There is a growing agitation for more stringent regulations regarding life guards.

### Recipes For This Week

(By Betty Barclay)

#### MARMALADE FRENCH TOAST

2 eggs.  
1/2 teaspoon salt.  
1 tablespoon sugar.  
1 cup milk.  
1/2 cup orange marmalade.  
Beat eggs, add salt, sugar, milk. Spread bread with orange marmalade; put slices together in pairs; soak in egg and milk mixture until softened, and cook on a hot, buttered griddle until delicately browned, turn, and brown on other side, and serve for breakfast or lunch.

#### RUMMAGE PICKLES

(From British Columbia.)

Cut 2 quarts green tomatoes, 1/2 ripe tomatoes, 1 medium calabash, 3 large onions, 3 roots celery, 1/2 pound carrots, 1/2 pound turnips, 1/2 cup vinegar, 1/2 cup brown sugar, and one teaspoon mustard mixed with a little vinegar. Cook for about one hour and seal.

The call of the open road: "Drive to one side while I give you a ticket."

## When Food Sours

About two hours after eating many people suffer from food stomach. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali. Take a glassful of Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. The right way to Phillips' Milk of Magnesia is not a tablet dose in water. It is pleasant, efficient, and

standard with physicians in the 60 years its invention.

It is the quick method. Results come immediately. You will never eat again without Phillips' Milk of Magnesia.

The person who returns from a vacation rations has passed a practical intelligence test.

The photograph here shows Premier Ramsay MacDonald and his daughter, Isabel, who arrived in New York on October 4, for a visit to the United States and Canada. The photograph shown here was taken at Los Angeles, California.

#### Merchandise From England By the Hudson Bay Route

##### Three Bales Of Blankets Are Received From Old Country Via Churchill

Sponsors of the first voyage from England to Western Canada by the Hudson's Bay two and a half centuries ago, the Hudson's Bay Company recently announced that it has been the first to ship goods from Winnipeg to England and from England to Winnipeg and from England to the Hudson's Bay Railway.

Previously, it had been announced that the Company of Adventurers of England trading into Hudson Bay, the H. B. Co., had forwarded to London by ship and by rail.

One ton of 1928 crop prairie wheat, which had been sent to London by ship and by rail.

But it had not been known originally that three bales of blankets had been brought down over the Hudson Bay Railway at the start of the season.

It is noted that the records of the company, on February 8, 1687, ordered that a settlement be established at Churchill, now the northern terminus of the Hudson Bay Railway.

Previously, it had been announced that the Company of Adventurers of England trading into Hudson Bay, the H. B. Co., had forwarded to London by ship and by rail.

### Woogman's Trading Co.

Bassano Alberta

## Local News

Mr. and Mrs. Francis and family, of Crowsfield, former residents of Bassano, back in the early days, were in town this week.

A son was born to Mr. and Mrs. C. P. Cooper, of Bassano, on Wednesday, October 22, at the local hospital.

Mrs. K. Conroy, of Glen River, Saskatchewan, is a new member of the nursing staff at the Bassano Hospital.

Mrs. Joe Young, of Gleichen, who has been a patient at the hospital, has recovered from her operation, and on Monday returned to her home in Gleichen.

### Duchess News

DUCHESS, Oct. 24 - Mrs. M. Ross has returned from Medicine Hat.

Mr. and Mrs. Powell, who have been visiting at the Lightfoot home, left for California where they will remain for the winter.

D. E. Hall leaves for Calgary this morning.

Harold Smith, of Cluny, pur on a dance Tuesday evening in the U. F. A. Hall. The High River orchestra furnished the music.

There was a large crowd, and all report a good time.

M. Why is holding a sale of house-hold goods today, and intends to leave for California to live.

E. R. Bissell and family motored to Hussar Sunday for a visit with friends.

Youngest son of Mr. and Mrs. L. Trippier was taken to Bassano for medical treatment last night.

Miss Spicer, of Crofton, spent the weekend at her home here.

Mr. and Mrs. Ross McDonald will motor to Calgary Friday to spend the weekend.

John Abrahamson and E. Sprout left Saturday for their homes in Calgary.

### DEATH OF WM. VANDERMOORE

Wm. Vandermoore, farmer of the Hussar District, died at the Keith Hospital, Calgary, on Saturday evening, October 19th, at the age of 36 years. The funeral was held in Bassano on Wednesday, October 23, a large number of friends attending.

Decesased is survived by his father and mother, Mr. and Mrs. Ralph Vandermoore, his sister, Miss S. Vandermoore, and a brother, Jan.

Also a married sister, Mrs. Jacob Swart, all residing at Shellingsdale, Holland.

"Why do you pay so many visits but never ask anybody to your own aquae?"

"You see, when I pay a visit I can go when I like, but when people visit me, I have to wait until they feel like going."

Teacher of Hygiene: "Why must we always be careful to keep our houses clean?"

Little Girl: "Because company might walk in."

"Are you a doctor?" she asked of the young man at the soda fountain. "No, madam," he replied, "I'm just a ditch-digger."

## Mothers!

Have Your Child's Feet  
Fitted Properly By

THE NEW VISIBLE SYSTEM OF FITTING (Patented 1929)

Exclusive With

## Jack and Jill

PUSHION SOLE SHOES  
for CHILDREN

BY THIS Jack and Jill method there is no more guesswork; the child's foot can actually be seen in the shoe, and cramping of the little toes, that grow so quickly, avoided. Children thus fitted will not need arch supports and other appliances in later years. For never does a "Jack and Jill" Shoe bind growing bones or muscles. Firmly constructed yet flexible as a glove, they allow the feet to grow unhindered. Sturdy and strong to stand the wear and tear of active youngsters, yet priced very moderately.

Jack and Jill Shoes are Endorsed by Physicians Everywhere

Bring in the Children and have them properly fitted by
